

Shade lite is a lightweight and lowcost sunshade with an elegant look. Portable and easily assembled, it is ideal for summer or occasional use.

Its advanced design uses the latest technology to provide a simple, wrinkle-free canopy that suits any location and provides instant protection from sun and showers. The teflon coated ripstop canopy makes it easy to clean and store.

Peg out Shade lite in minutes to create instant shade anywhere in the garden or for picnics at the park.

Accessories :

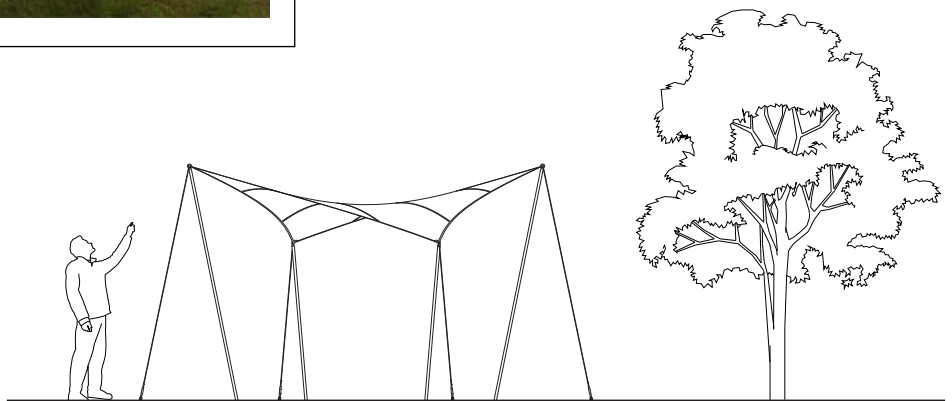

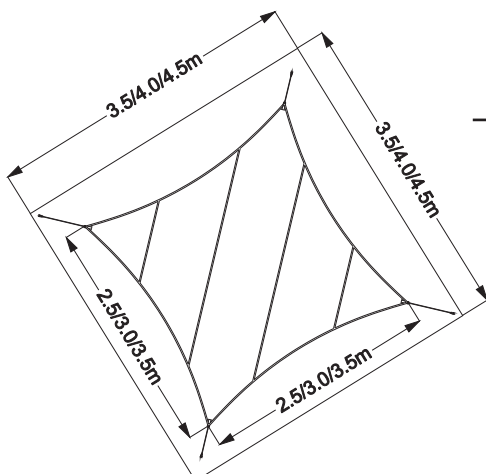

Shade Lite is the perfect shelter for almost anywhere, and comes with two optional features which are;

A deck kit with stainless steel cables and flush fittings. This can be fitted to an existing deck or patio in a couple of hours and makes using your canopy even easier and quicker. Fully tensioned your canopy will easily withstand those windy summer days (rated to 30mph).

Or, you can pack your canopy into its carrying bag, jump in the car and enjoy shade all day long at the beach with the optional soft sand pegs.

Dimensions :

Available in 2.5m or 3.5m (minimum space required is 3.5m or 4.5m).
